In a row of boys, If A who is 10<sup>th</sup> from the left and B who is 9<sup>th</sup> from the right interchange their positions, A becomes 15<sup>th</sup> from the left. How many boys are there in the row ?

- 27
- 23
- 31
- 28

**9 of 100**

211 PU\_2016\_391\_E

A cone and a hemisphere have equal bases and equal volumes. The ratio of their height is:-

- 4:1

- 2:1
- 1:2
- 3:1

**10 of 100**

112 PU\_2016\_391\_E

International Statistical Classification of Diseases and Related Health Problems (ICD-10) is proposed by

- \_\_\_\_\_.
- UNDP
  - UNICEF
  - American Psychological Association
  - WHO

**11 of 100**

173 PU\_2016\_391\_E

SIM stands for:-

- Short Identity Module
- Super Identity Module
- Subscriber Identity Memory
- Subscriber Identity Module

**12 of 100**

151 PU\_2016\_391\_E

A rule that is socially enforced is:-

- Market forces
- Civil code
- Norm
- Indian Penal Code

**13 of 100**

162 PU\_2016\_391\_E

Which of the following is converted into glucose in the human body before being utilized to provide energy?

- Minerals
- Vitamins
- Proteins
- Carbohydrates

**14 of 100**

172 PU\_2016\_391\_E

Which capital denotes the value of social network in the society?

- Financial Capital
- Human Capital
- Social Capital
- Physical Capital

**15 of 100**

115 PU\_2016\_391\_E

Human Rights Day is observed on:-

- 1<sup>st</sup> December
- 10<sup>th</sup> December
- 8<sup>th</sup> March
- 10<sup>th</sup> May

**16 of 100**

210 PU\_2016\_391\_E

The mean of the marks scored by 50 students was found to be 39. Later on it was discovered that a score of 43 was misread as 23. The correct mean is

- 39.8
- 38.6
- 39.4
- 39.2

**17 of 100**

209 PU\_2016\_391\_E

A is B's sister. C is B's mother. D is C's father. E is D's mother. Then, how is A related to D?

- Grandfather
- Daughter
- Granddaughter
- Grandmother

**18 of 100**

161 PU\_2016\_391\_E

Which of the following groups of States benefits most from the Konkan Railway?

- Tamil Nadu, Kerala, Goa, Maharashtra
- Madhya Pradesh, Maharashtra, Tamil Nadu, Kerala
- Goa, Karnataka, Maharashtra, Kerala
- Gujarat, Maharashtra, Goa, Tamil Nadu

**19 of 100**

188 PU\_2016\_391\_E

A shepherd had 27 sheep. All but 10 died. How many he left with?

- 10
- 15
- 17
- 27

**20 of 100**

153 PU\_2016\_391\_E

Infant mortality rate refers to deaths in the age group:-

- 0-4 years
- 0-5 years
- 0-1 year
- 0-6 years

**21 of 100**

114 PU\_2016\_391\_E

Who is the current Chairperson of National Commission for Minorities?

- Shri. Dadi. E. Mistry
- Ms. Mabel Rebelo
- Shri. Naseem Ahmed
- Prof. Farida Abdulla Khan

**22 of 100**

- such lot of
- such much

**82 of 100**

283 PU\_2016\_391\_D

Read the following passage and answer the question given below:-

Workplace bullying is a separate issue from sexual or racial harassment. It constitutes unwanted, offensive, humiliating, undermining behaviour towards an individual or groups of employees. Such persistently malicious attacks on personal or professional performance are typically unpredictable, irrational and often unfair. It can cause such chronic stress and anxiety that people gradually lose belief in themselves, suffering physical ill health and mental distress as a result. Although people in workplaces have been dealing with bullying for many years, the concept was named a little more than a decade ago. The last few years have seen considerable professional and academic work on the topic around the world. Across the globe a pattern is emerging of how interest in bullying at work grows. Typically it starts with press reports on some rather dreadful incident of people being treated badly at work. This is followed by a study which exposes the extent to which ordinary people experience negative events in their working lives. The subsequent publicity generates further interest, and often replica or improved studies are undertaken which establish with more certainty that there is 'something' going on (or not) in our working environments. In Britain the British Broadcasting Corporation (BBC) can take credit for being a lynchpin in our emergent awareness. The BBC ran a radio documentary programme in 1990. In this programme Andrea Adams (a freelance journalist) introduced the topic and played taped interviews of people talking about their negative experiences at work. Charlotte Rayner from Staffordshire University, was brought to conduct a survey which would provide more formal evidence of the problem. Unlike everyday conflicts at work, bullying is a long-lasting one, where one person is systematically harassed by one or more colleagues or superiors. It also creates an unhealthy working atmosphere usually by intimidating the rest. The basic purpose of bullying is to hide inadequacy. On a social group level, bullying may be explained in terms of 'scape goating'. For instance, being too honest or unwilling to compromise may contribute to attaining the role of a scapegoat. In cases of 'predatory bullying' the victim has done nothing provocative that may reasonably justify the behaviour of the bully. Sheila Freeman and Helene Richards, have the following advice for the victims: "Do not think that the bully's behaviour is going to improve because it will not. Either get out and cut your losses or, if you are strong enough, fight it".

**Q)** In Britain the British Broadcasting Corporation (BBC) can take credit for being a lynchpin in our emergent awareness. What does lynchpin mean in the given context?

- a bully
- a pin placed transversely through an axle to keep a wheel in position
- a person who considers himself as inevitable
- a person or thing regarded as an essential or coordinating element

**83 of 100**

267 PU\_2016\_391\_D

There are more \_\_\_\_\_ than last year.

- unemployment
- unemployeds
- unemployments
- unemployed

**84 of 100**

274 PU\_2016\_391\_D

Select the correct synonyms of the following question.

Admonish

- Distortion
- Decanter
- Reprove
- Carouse

**85 of 100**

291 PU\_2016\_391\_D

Read the following passage and answer the question given below:-

The average life span of humanity throughout all history was twenty seven years. In the nineteenth century, however, science and improved technology trebled life expectancy. As technological capabilities improved and life expectancy increased, the number of babies per family went down, demonstrating the fact that nature keeps on balancing the population figure. After major wars, when large numbers of young and healthy men are killed, baby-making increases. The birth rate continues to rise for five years or so after the war ends until the score is rectified. All this happens without conscious cooperation or even the knowledge of the human beings. When the probabilities of human survival are poor, nature makes many babies. When the chances of man's survival improve, nature reduces number of new babies.

**Q)** With the development of science and technology in the 19<sup>th</sup> century:-

- More people were expected to live longer
- People expected more agricultural production
- People expected to produce more babies
- People expected more comforts in life

**86 of 100**

275 PU\_2016\_391\_D

Select the correct synonyms of the following question.

Credence

- Split
- Ponder
- Belief
- Outwit

### 87 of 100

Typically it starts with press reports on some rather dreadful incident of people being treated badly at work. This is followed by a study which exposes the extent to which ordinary people experience negative events in their working lives. The subsequent publicity generates further interest, and often replica or improved studies are undertaken which establish with more certainty that there is 'something' going on (or not) in our working environments. In Britain the British Broadcasting Corporation (BBC) can take credit for being a lynchpin in our emergent awareness. The BBC ran a radio documentary programme in 1990. In this programme Andrea Adams (a freelance journalist) introduced the topic and played taped interviews of people talking about their negative experiences at work. Charlotte Rayner from Staffordshire University, was brought to conduct a survey which would provide more formal evidence of the problem. Unlike everyday conflicts at work, bullying is a long-lasting one, where one person is systematically harassed by one or more colleagues or superiors. It also creates an unhealthy working atmosphere usually by intimidating the rest. The basic purpose of bullying is to hide inadequacy. On a social group level, bullying may be explained in terms of 'scape goating'. For instance, being too honest or unwilling to compromise may contribute to attaining the role of a scapegoat. In cases of 'predatory bullying' the victim has done nothing provocative that may reasonably justify the behaviour of the bully. Sheila Freeman and Helene Richards, have the following advice for the victims: "Do not think that the bully's behaviour is going to improve because it will not. Either get out and cut your losses or, if you are strong enough, fight it".

**Q)** "Typically it starts with press reports on some rather dreadful incident of people being treated badly at work" - what does 'it' refer to?

- Bullying in the workplace
- Emerging global pattern of interest in workplace bullying

- Racial harassment in the workplace
- Sexual harassment in the workplace

Read the following passage and answer the question given below:-

Workplace bullying is a separate issue from sexual or racial harassment. It constitutes unwanted, offensive, humiliating, undermining behaviour towards an individual or groups of employees. Such persistently malicious attacks on personal or professional performance are typically unpredictable, irrational and often unfair. It can cause such chronic stress and anxiety that people gradually lose belief in themselves, suffering physical ill health and mental distress as a result. Although people in workplaces have been dealing with bullying for many years, the concept was named a little more than a decade ago. The last few years have seen considerable professional and academic work on the topic around the world. Across the globe a pattern is emerging of how interest in bullying at work grows. Typically it starts with press reports on some rather dreadful incident of people being treated badly at work. This is followed by a study which exposes the extent to which ordinary people experience negative events in their working lives. The subsequent publicity generates further interest, and often replica or improved studies are undertaken which establish with more certainty that there is 'something' going on (or not) in our working environments. In Britain the British Broadcasting Corporation (BBC) can take credit for being a lynchpin in our emergent awareness. The BBC ran a radio documentary programme in 1990. In this programme Andrea Adams (a freelance journalist) introduced the topic and played taped interviews of people talking about their negative experiences at work. Charlotte Rayner from Staffordshire University, was brought to conduct a survey which would provide more formal evidence of the problem. Unlike everyday conflicts at work, bullying is a long-lasting one, where one person is systematically harassed by one or more colleagues or superiors. It also creates an unhealthy working atmosphere usually by intimidating the rest. The basic purpose of bullying is to hide inadequacy. On a social group level, bullying may be explained in terms of 'scape goating'. For instance, being too honest or unwilling to compromise may contribute to attaining the role of a scapegoat. In cases of 'predatory bullying' the victim has done nothing provocative that may reasonably justify the behaviour of the bully. Sheila Freeman and Helene Richards, have the following advice for the victims: "Do not think that the bully's behaviour is going to improve because it will not. Either get out and cut your losses or, if you are strong enough, fight it".

**Q)** What is the basic purpose of bullying, as per the passage?

- To hide inadequacy
- To hide conflicts
- To prevent workplace violence
- To prevent intimidating the rest

Select the correct synonyms of the following question.

Abscission

- Condense
- Abolish
- Adjoin
- Separation

**93 of 100**

290 PU\_2016\_391\_D

Read the following passage and answer the question given below:-

The average life span of humanity throughout all history was twenty seven years. In the nineteenth century, however, science and improved technology trebled life expectancy. As technological capabilities improved and life expectancy increased, the number of babies per family went down, demonstrating the fact that nature keeps on balancing the population figure. After major wars, when large numbers of young and healthy men are killed, baby-making increases. The birth rate continues to rise for five years or so after the war ends until the score is rectified. All this happens without conscious cooperation or even the knowledge of the human beings. When the probabilities of human survival are poor, nature makes many babies. When the chances of man's survival improve, nature reduces number of new babies.

**Q)** The author says that throughout history -

- Every man lived twenty seven years or so
- Some men lived far less than twenty seven years
- Every man died on attaining twenty seven years
- The average life of human race was twenty seven years
