Examination: Ph.D. Physical Education **SECTION 1 - SECTION 1 Question No.1** Select the correct sequence of soft tissue injury management procedure Compression, Elevation, Rest, Ice Elevation, Compression, Ice, Rest Ice, Elevation, Rest, Compression Rest, Ice, Compression, Elevation **Question No.2** A design in which male and female participants of three different agegroups are compared on some dependent measure is termed: 2 x 3 factorial design 2 x 3 mixed design A x B factorial design 2X2X2 factorial design **Question No.3** When catching a ball, your hand knows when to grasp because Alpha waves are being generated by your brain Afferent signals inform your hand that the ball is about to make contact Your parasympathetic nervous system is active Participating muscles receive efferent signals from the brain **Question No.4** The Axial Skeleton would include Cranium & Vertebrae Humerus & Femur Humerus & Vertebrae Vertebrae & Femur **Question No.5**

Flexion takes place around

- Hinge joint
- Synovial joint
- Gliding joint

Ball and socket joint
Question No.6
Dhyan Chand Lifetime Award was first given in 1961 2002 1991 1985
Question No.7
In one-way analysis of variance the within group degrees of freedom is computed by the formula onr-1 on(r-1) r(n-1) rn-1
Question No.8
The independent variable refers to The variable being manipulated or varied in some way by the researcher The variable which shows us the effect of the manipulation A variable which serves as the aim of Historical Research The variable which is only used in the Physical education.
Question No.9
Overuse of tendons in physical activity can cause problems. Which one of the following problems is associated with tendon overuse? Bruising Inflammation Hypertrophy Arthritis
Question No.10
While inspired air contains 20% oxygen, the amount of oxygen contained in the expired air is 28% 20% 24%

○ 16%	
Question No.11	
In which of the sampl	ing technique a combination of different sampling
method is used for se	
Quota sampli	
Convenience	sampling
 Sequential sa 	ampling
Multistage sa	mpling
Question No.12	
Organ that is not invo	olved in the endocrine system
Stomach	arved in the endeemie cyclem
Thyroid	
Adrenal	
Pancreas	

What is the correct order of the various stages of motor skill learning?

- Associative, Cognitive and Autonomous
- Cognitive, Associative and Autonomous
- Cognitive, Autonomous and Associative
- Autonomous, Associative and Cognitive

Question No.14

In preparing for a major competition, many elite athletes structure training to put themselves under the same sort of pressure encountered during the actual competition. This is an example of

- Pre-competitive plans
- Pre-competitive training
- Simulation training
- Mental Rehearsal

Question No.15

When the body is undergoing the process of performing various activities, the antagonist muscles

- Relax
- Get paralyzed
- Supports agonists movement

Question No.16	
A Philosopher who str	rive to know Truth, Beauty and Goodness in life and
nature in their varied f	· · · · · · · · · · · · · · · · · · ·
Existentialist	
Idealist	
Naturalist	
Humanist	
Question No.17	
If the null hypothesis i	is rejected at 0.01 level of significance, then
It will be accept	pted at the 0.05 level of significance
It may be acce	epted at the 0.05 level of significance
It may be reje	cted at the 0.05 level of significance
○ It will also be	rejected at the 0.05 level of significance
Question No.18	
Pooplo who are avails	able valuateer or can be easily recruited are used
in the sampling metho	able, volunteer, or can be easily recruited are used od called
Convenience	
Systematic sa	ampling
Cluster sampl	ing
Simple randor	m sampling
Question No.19	
Synarthrosis is type o	f joint which by all means is
Partially move	-
Completely Im	nmoveable
Highly movea	
Least Moveab	ole
Question No.20	
	g are chemically known as lipids
-	
Candies	
-	

Question No.21
Howthorne studies is related to which stage of the organizational behavior
Scientific management
Organizational behaviour
Human relations movement
Industrial revolution
Question No.22
In which sampling technique sample drawn includes elements only from sampled clusters of the population? Systematic sampling Stratified sampling
○ Cluster sampling
 Snowball sampling
Question No.23
Historical Research is also known as
Demographic Research
Biographic Research
Event study
Retrospective Research
Question No.24
The state of balance and equilibrium in internal physiological conditions is known as :
○ Homeostasis
Hypo kinetics
Metabolism
Anabolism
Question No.25
Which element of muscle fibre is contractile
Contractile Proteins
Spindles
Myofibrils
Question No.26

What are the total number of medals of India in 2018 Commonwealth games 70 66 69 62	
Question No.27	
The component of philosophy that deal with knowledge ,its kinds and methods, is known as Epistemology Logic Axiology Metaphysics	
Question No.28	
A common anthropometric measure for infants is Recumbent height. Standing height Laying height Sitting height	
Question No.29	
Which of the following bones meet to form the elbow joint? Humerus and femur Femur and pelvis Humerus, tibia and fibula Humerus, radius and ulna	
Question No.30	
Mental development includes	
Question No.31	
Oxygenated blood leaves the human heart via the	

Pulmonary Vein
Vena Cava
Aorta
Pulmonary Artery
Question No.32
While the birthplace of the RBC in the human body is the bone marrow,
their Graveyard is:
Liver
Spleen
Duodenum
Pancreas
Question No.33
The same of Congritive development was given by
Theory of Cognitive development was given by William McDougall
Jean Piaget
Sigmund Freud
Stanley Hall
Clarify Hair
Question No.34
Question No.34 In which of the following kind of exercises, there occurs no muscle contraction
In which of the following kind of exercises, there occurs no muscle
In which of the following kind of exercises, there occurs no muscle contraction
In which of the following kind of exercises, there occurs no muscle contraction Ballistic
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms into a/an
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms into a/an Embryo
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms into a/an
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms into a/an Embryo Zygote
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms into a/an Embryo Zygote Gametes
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms into a/an Embryo Zygote Gametes Foetus Question No.36
In which of the following kind of exercises, there occurs no muscle contraction Ballistic Isotonic Isokinetic Isometric Question No.35 Immediately after fertilisation by a spermatozoon, an ovum transforms into a/an Embryo Zygote Gametes Foetus Question No.36

Boxing
Wrestling
Atya Patya
Overtion No 27
Question No.37
The primary responsibility for any administrator when dealing with risk management should be to :
 use vague and unclear language in the waivers so that the waiver can be applied to all situations
 Require parents to sign waivers for all negligent as well as intentional actions.
 inform his or her staff of the risks and dangers inherent in their profession
 cancel the usage of all waivers as they are unenforceable
Question No.38
When you decide whether or not the data support the original hypothesis, you are
○ Posing a question.
Making an observation.
Drawing a conclusion.
<u> </u>
 Making an inference.
Making an inference. Question No.39
Question No.39 Which of the following is not measured using film analysis and EMG
Question No.39 Which of the following is not measured using film analysis and EMG analysis?
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility Balance Question No.40
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility Balance
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility Balance Question No.40 Our hand generally get contaminated with
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility Balance Question No.40 Our hand generally get contaminated with Grease and oil
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility Balance Question No.40 Our hand generally get contaminated with Grease and oil Bacteria
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility Balance Question No.40 Our hand generally get contaminated with Grease and oil Bacteria Chemicals
Question No.39 Which of the following is not measured using film analysis and EMG analysis? Speed Coordination Agility Balance Question No.40 Our hand generally get contaminated with Grease and oil Bacteria Chemicals Soil and dirt

Physical exercise done in the absence of oxygen is called
Anaerobic
Aerobic
Isokinetic
Isometric
Question No.42
Transition period aims at
Stabilization of performance
Supercompensation
Recovery
Recreation
Question No.43
Which of the following muscle is mainly responsible for movement Stabilizer
Antagonist
Agonist
Synergist
Question No.44
To find out the number of matches in double league competition. Which formula will be applied?
To find out the number of matches in double league competition. Which formula will be applied? n (n-1) / 2
To find out the number of matches in double league competition. Which formula will be applied? n (n-1) / 2 n ² (n-1)
To find out the number of matches in double league competition. Which formula will be applied? on (n-1) / 2 n² (n-1) on (n-1)
To find out the number of matches in double league competition. Which formula will be applied? n (n-1) / 2 n ² (n-1)
To find out the number of matches in double league competition. Which formula will be applied? on (n-1) / 2 n² (n-1) on (n-1)
To find out the number of matches in double league competition. Which formula will be applied? on (n-1) / 2 on 2 (n-1) on (n-1) on -1 Question No.45
To find out the number of matches in double league competition. Which formula will be applied? on (n-1) / 2 n ² (n-1) n (n-1) n-1
To find out the number of matches in double league competition. Which formula will be applied? on (n-1) / 2 on² (n-1) on (n-1) on-1 Question No.45 Which city is going to host the 2024 Olympic games
To find out the number of matches in double league competition. Which formula will be applied? on (n-1) / 2 on² (n-1) on (n-1) on-1 Question No.45 Which city is going to host the 2024 Olympic games Bejing
To find out the number of matches in double league competition. Which formula will be applied? n (n-1) / 2 n² (n-1) n (n-1) n-1 Question No.45 Which city is going to host the 2024 Olympic games Bejing Los Angeles
To find out the number of matches in double league competition. Which formula will be applied? on (n-1) / 2 on² (n-1) on (n-1) on-1 Question No.45 Which city is going to host the 2024 Olympic games one Bejing one Los Angeles one Paris
To find out the number of matches in double league competition. Which formula will be applied? n (n-1) / 2 n² (n-1) n (n-1) n-1 Question No.45 Which city is going to host the 2024 Olympic games Bejing Los Angeles Paris London

 Probability of not rejecting the null hypothesis when it is tree. Probability of rejecting the null hypothesis when alternative hypothesis is false. 	
Question No.52	
Lighting of the flame was originally a ritual at the ancient Olympic but it was re-introduced at the modern games in 1924	games
1920	
1908	
1928	
Question No.53	
Diuretics are generally used by athletes of power sport in order to Bring stability in circulation of blood	:
 Bring the tension level down 	
 Increase muscle strength 	
Lose body weight	
Question No.54	
Whereas the primary gaseous exchange takes place in the alveol located in the lungs, the secondary exchange occurs in the	i
Cells	
NervesMyofibrils	
○ Plasma	
Question No.55	
Which one of the following training methods is mostly aerobic? Flexibility training	
Continuous training	
Circuit training	
Weight training	
Question No.56	
Which type of learner uses a problem-solving approach while lear	ning a
new movement?	g u
 Analytical learner 	
Auditory learner	

Visual learnerKinesthetic learner
Question No.57
Who was the first athlete to be awarded Padmashree Award? G. S. Randhawa P. T. Usha V. S. Chauhan Milkha Singh
Question No.58
Which is the most effective method for encouraging self learning? Task method Demonstration method Observation method Lecture method
Question No.59
Movements that occur primarily in the sagittal plane are: Adduction, lateral flexion, flexion, dorsiflexion Flexion, extension, dorsiflexion, internal-external rotation Flexion, extension, dorsiflexion, plantar flexion Supination and pronation of the forearm
Question No.60
The Research which involves in in-depth study and evaluation of available information to explain the nature of complex phenomenon is : Qualitative research Analytical research Descriptive research Experimental Research
Question No.61
Which one of the following best describes fartlek training? A bounding and hopping method with flexibility and power A high resistance, low repetition method with strength and power A mobility training method with active and passive stretching A varied, continuous training method with speed and endurance

Question No.02
What is on the bottom of Maslow's hierarchy of needs from the followings Need of Safety
Physiological needs
 Self esteem
 Self-actualization
Question No.63
Select the correct descending order of anatomical structures according to their location
 Coracoid Process, Acetabulum, Glenoid Cavity, Xiphoid Process
 Coracoid Process, Glenoid Cavity, Xiphoid Process, Acetabulum
 Coracoid Process, Xiphoid Process, Glenoid Cavity, Acetabulum
 Acetabulum, Coracoid Process, Glenoid Cavity, Xiphoid Process
Question No.64
In terms of biomechanics gravity is what causes our
Stability
Volume
Weight
Equilibrium
Equilibrium
Question No.65
Ivan Pavlov was a Russian
 Psychiatrist
Physiologist
 Psychologist
 Philosopher
Question No.66
Which of the following grand slam tournament played on the Clay Wimbledon
French Open
Australian Open
○ US open
Question No.67

Name the type of protein in haemoglobin is
Transport
Contractile
Hormone
 Structural
Question No.68
The ability to effectively integrate the moments of the body parts is
Speed
Co-ordination
Balance
Agility
Question No.69
Law of effect also known as a
Law of primacy
Law of satisfaction
Law of recency
Law of exercise
Question No.70
Which of the following is a SI measure unit of Acceleration
Which of the following is a SI measure unit of Acceleration m/s ³
Which of the following is a SI measure unit of Acceleration m/s ³ m/s
Which of the following is a SI measure unit of Acceleration m/s ³ m/s m/s ²
Which of the following is a SI measure unit of Acceleration m/s ³ m/s
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s
Which of the following is a SI measure unit of Acceleration m/s ³ m/s m/s ²
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body.
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart?
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart? Decrease in stroke volume
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart? Decrease in stroke volume Increase in tidal volume
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart? Decrease in stroke volume
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart? Decrease in stroke volume Increase in tidal volume
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart? Decrease in stroke volume Increase in tidal volume Increase in stroke volume Decrease in tidal volume Decrease in tidal volume
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart? Decrease in stroke volume Increase in tidal volume Increase in stroke volume
Which of the following is a SI measure unit of Acceleration m/s³ m/s m/s² Rad/s Question No.71 There are many long term effects of exercise and training on the body. Which one of the following is a long term effect on the heart? Decrease in stroke volume Increase in tidal volume Increase in stroke volume Decrease in tidal volume Decrease in tidal volume

 Having a painkilling and sedating effect
 Increasing heart and respiratory rates and suppressing the symptoms of fatigue
Question No.73
Ex Post Facto Research means
 The Research is carried out keeping in mind the possibilities of an incident
 The Research is carried out along with the happening of an incident
 The Research is carried out prior to the incident
 The Research is carried out after the incident
Question No.74
Autogenic training is a technique
 To bring about relaxation in body
 To increase anxiety level
 To counter avoidance syndrome
 None of these
Question No.75
Which of the following is called Protein Factory
 Golgi Apparatus
Golgi ApparatusMitochondria
Mitochondria
MitochondriaRibosome
 Mitochondria Ribosome Chromosome Question No.76 Which of the following do not serve as a Lever
 Mitochondria Ribosome Chromosome Question No.76 Which of the following do not serve as a Lever A Pulley
 Mitochondria Ribosome Chromosome Question No.76 Which of the following do not serve as a Lever A Pulley A Tennis ball
 Mitochondria Ribosome Chromosome Question No.76 Which of the following do not serve as a Lever A Pulley A Tennis ball A cricket Bat
 Mitochondria Ribosome Chromosome Question No.76 Which of the following do not serve as a Lever A Pulley A Tennis ball
 Mitochondria Ribosome Chromosome Question No.76 Which of the following do not serve as a Lever A Pulley A Tennis ball A cricket Bat

 Objective inference 	
Pseudo-inference	
 Deductive inference 	
Question No.78	
Blood pumped by our heart in one minute called	
Stroke volume	
Cardiac max. volume	
 Cardiac output 	
 Tidal volume 	
Question No.79	
In Khelo India Youth Games which state got first position in medal tally Assam	
Delhi	
Maharashtra	
Haryana	
Question No.80	
The major function of ligament in the body is to	
 Reduce friction in the joints 	
Coordination	
Act as levers	
Prevent joint dislocation	
Question No.81	
What is the motto of 2028 LA Olympics	
Anew world	
 Discover tomorrow 	
 Made for sharing 	
Follow the sun	
Question No.82	
A procedure that involves selected a sample on the basis of particular characteristics or an identified variable : Probability sampling Snowball sampling Convenience sampling	

Purposive sampling	
Question No.83	
Which one of the following is an effect of lactic acid during an exercise session?	
 Helps to break down oxygen to produce more energy 	
 Causes muscle fatigue during exercise 	
 Causes stomach ache due to over-eating 	
 Helps you focus on the exercise task 	
Question No.84	
Which of the following tests cannot measure coordination?	
Vertical jump	
Jumping jack	
Jump rope	
Question No.85	
A statistical technique for investigating the difference between groups of some dependent variable after controlling for one or more convariates. Chi square ANOVA ANCOVA Regression analysis	on
Question No.86	
Question No.00	
The maximum volume of air contained in the lung by a full forced inhalation is called	
 Total lung capacity 	
 Tidal volume 	
 Inspiratory capacity 	
○ Vital capacity	
Question No.87	
The final recommendation for Arjuna Awards is given by	
State Government	
 The Prime Minister of India 	
Ministry of H. R. D.	
The President of India	

Question No.88
Which one of the following best describes aerobic training? Long intervals of fast work Short intervals of slow work Long intervals of slow work Short intervals of fast work
Question No.89
Muscles developed through anaerobic exercise workouts carry more of Dynamic strength Stamina Endurance capacity Explosive power
Question No.90
Effective communication is essential in sports management to keep alive its Principle Foundation
Dynamics
 Characteristics
Question No.91
Bone cells are also called Osteoporosis Osteoclasts Osteocytes Osteoblasts
Question No.92
In sequence the colour of the interlinked rings on the Olympic flag runs as Yellow, Blue, Green, Black and Red Green, Yellow, Black, Red and Blue Blue, Yellow, Black, Green and Red Black, Yellow, Blue, Green and Red

Question No.93

The state of balance and equilibrium in internal physiological conditions is known as
 ○ Homeostasis
Anabolism
Metabolism
Hypokinetics
Турскителес
Question No.94
Any relatively permanent change in behaviours resulting from experience is popularly known as
 Acquisition
 Conditioning
Learning
 Response
Question No.95
An athlete with prosthetic limbs is called
Amputee Athlete
Athlete with artificial limbs
Differently-abled Athlete
Athlete
Question No.96
Which of the following is non-probability sampling?
Stratified
Random
Snowball
Cluster
Question No.97
'Exercise for the body and music for the soul, in which country the common adage was used?
Greece
France
Italy
 Germany
Question No.98

Pointing to a man in a photograph, a man said to a woman, "His mother is the only daughter of your father". How is the woman related to the man in the photograph? Mother Sister Wife Daughter
Question No.99
Which one of the following movement's best describes flexion around a joint?
 Squeezing your ankles together whilst lying on the floor

Bending backwards at the hip whilst standing

- Lowering your body using your arms in the press up position
- Turning your hand around so that the palm is facing upwards

Question No.100

In SPSS, what is the "Data Viewer"?

- A screen in which variables can be defined and labeled
- A table summarizing the frequencies of data for one variable
- A spreadsheet into which data can be entered
- A dialog box that allows you to choose a statistical test
