The administration of a rural elementary school is having difficulty getting support from parents for their children's education. Few parents go to parent teacher meetings. Due to poor attendance and declining student test scores, the principal asks the school social worker to find ways to promote the interest of families in the education of their children. With this instruction, which of the following would be the most appropriate and effective way for the school social worker to begin building a relationship between the school and the community?

- Send a letter home with students stating that pupil services will help them with any school problems
- Distribute announcements in the community inviting everyone to an open house at the school.
- Observe small groups of students who have been asked to discuss their feelings about the school social worker
- Interview parents, and opinion leaders in the area to discover their views of the school
