E-CIRCULAR

**Training on SYSTAT 13.2
(Powerful Statistical Analysis and Graphics Software)**

The Ananda Rangapillai Library, Pondicherry University, is organizing a Hands-on Training on SYSTAT 13.2, a powerful statistical analysis and graphics software, for Faculty Members, Research Scholars, and Students of the University.

SYSTAT 13.2 is an advanced desktop statistical computing platform designed for research and data-driven decision-making across diverse disciplines. This application-oriented training will provide participants with practical exposure to statistical modelling, data management, hypothesis testing, advanced multivariate techniques, and publication-quality scientific data visualization using SYSTAT.

Date: 03 September 2026 Time: 3:00 PM – 4:30 PM

Venue: Seminar Hall, Library Annexe, Pondicherry University

Resource Person: Mr. Kiran, Biostatistician & Product Specialist (SYSTAT)

The workshop offers a structured, hands-on learning experience that equips participants with practical skills in research-oriented statistical analysis and scientific data visualization. The training will cover the complete analytical workflow, including system navigation, dataset creation, variable configuration, multi-format data import, Design of Experiments (DOE), Power Analysis, descriptive and inferential statistics, predictive modelling through ANOVA and regression techniques, advanced methods such as Factor Analysis, Discriminant Analysis, Time Series Analysis, and Response Surface Methodology (RSM). Participants will also gain practical expertise in creating, customizing, and exporting publication-ready graphs for high-quality research and academic publications.

Only limited seats are available for this training. All interested Faculty Members, Research Scholars, and Students are requested to register for the training using the following link. Registration: <https://forms.gle/wMCZW4S6ahCkypTd7>

For more details please contact the training coordinator, Dr. Shibu K. M, Assistant Librarian, Journals Section, Ananda Rangapillai Library, Pondicherry University, Email: shibukm.lib@pondiuni.ac.in, Phone:+91-413 2654282.

DATE

03 September 2026
(Thursday)

TIME

3:00 PM – 4:30 PM

VENUE

Seminar Hall,
Library Annexe,
Pondicherry University

The workshop offers a structured, hands-on learning experience that equips participants with practical skills in research-oriented statistical analysis and scientific data visualization. The training will cover the complete analytical workflow, including system navigation, dataset creation, variable configuration, multi-format data import, Design of Experiments (DOE), Power Analysis, descriptive and inferential statistics, predictive modelling through ANOVA and regression techniques, advanced methods such as Factor Analysis, Discriminant Analysis, Time Series Analysis, and Response Surface Methodology (RSM). Participants will also gain practical expertise in creating, customizing, and exporting publication-ready graphs for high-quality research and academic publications.

WORKSHOP HIGHLIGHTS

- ✓ System navigation & dataset creation
- ✓ Variable configuration & multi-format data import
- ✓ Design of Experiments (DOE) & Power Analysis
- ✓ Descriptive & inferential statistics
- ✓ Predictive modelling using ANOVA & regression techniques

- ✓ Advanced techniques: Factor Analysis, Discriminant Analysis, Time Series Analysis & Response Surface Methodology (RSM)
- ✓ Data management & hypothesis testing
- ✓ Creating, customizing & exporting publication-ready graphs
- ✓ High-quality data visualization for research & academic publications

Only limited seats are available for this training.

All interested Faculty Members and Research Scholars are requested to register for the training using the following link.
